The ZEN-V allows the seamless addition of aftermarket amplifiers into compatible vehicles, delivering audiophile-quality sound without compromising the vehicle factory fit, finish or features.

*Utilizing the same processing power as NAV-TV's competition proven M650-GM, the ZEN-V produces a completely flat audio output without any factory time delay or equalization, eliminating the need for summing devices, an audio correction DSP or the removal of the factory audio compensation microphones.*

The **ZEN-V produces a 12 channel analog output with a S/N Ratio of 112dB**. For vehicles with video playback capability, the **ZEN-V supports 7.1 and 5.1 audio[2]**.

*NOTE: the ZEN-V will replace the factory amplifier. This is an all-or-nothing solution.*
